

# Weller Mission Update THE MARQUES PROJECT

Hello Friends,

January / February 2006

**I am preparing to return to Peru in February and March to continue the work God has called us to there.** As you know, over the last few years we were able by God's grace and with help from people like you to purchase properties in Lima, Peru to help build the local churches. Our goal in this endeavor was and still is to help the churches we work with to have a strong home base to operate from. **Over the last couple years we've been involved in not just spiritually helping to build the local churches but also in the construction of their church buildings.** Some of you receiving this letter were on the teams that helped accomplish this task. **I am still so grateful for your involvement!** Others of you weren't able to GO but were the SENDERS to help fulfil this vision.

**Initially, the Lord put four projects on my heart.** The projects were and are: **The Pachacutec Project, The Ancon Project, The Costa Azul Project and now The Marques Project.** In Pachacutec and Costa Azul the church buildings were built from the ground up to completion. In Ancon we helped finish what was already there by adding the floor, the roof, the unfinished walls, and new lights and chairs.

**Now it is time for the last of these four projects.** We have two teams scheduled to come and help. The first is February 18-25, a group of people from around the country (if you are interested we have room for you). The second group is Pasadena Presbyterian Church of St. Petersburg, Fl. They plan on coming the week of March 25 to April 2.

**I am so excited about what God is doing and is going to do in Marques.** The Marques Project will initially be two stories tall and about 75 feet long by 25 feet wide. **It will be a Church, a Feeding Center, an apartment for Pastor Fabian, Cecilia and family** (who presently sleep in a "cardboard room" in the back of the existing structure) **and a kindergarten or child care center where they can help care for the small children of the neighborhood.** Anne and I have worked with Pastor Fabian and Cecilia for about five years now. They have proven to be faithful servants of our Lord Jesus Christ.

**We plan as the Lord provides to add a third floor which will be a mission training center. A place where we can help the local churches raise up, train up and send out their own missionaries to other parts of Latin America and then into the world.** This will include some dorm rooms where these students can live while in the training program.

**I am writing you to ask you to consider helping with this project. We are praying now for \$8,000 to construct the first floor of this building.** I assure you that an investment in The Marques Project will bring forth spiritual fruit until the Lord returns. We have committed ourselves to be faithful with the mission dollars that have been entrusted to us. **I want to thank you in advance for prayerfully considering getting involved in The Marques Project.**

In His love and service,
